* This 2021 estimate differs from the estimate published in Cubides & O'Brien 2022 due to differences in both data cleaning and data sample. In this paper, the authors made the choice to remove from the calculations one observation with a value of over \$30M in stored cash. In their paper, Cubides & O'Brien removed all values in the top 0.1 percentile. Additionally, the Cubides & O'Brien paper uses the full sample of the 2021 DCPC, while this paper only uses the nationally representative sample.

† This statistic is conditional on a consumer having some cash stored elsewhere.
