

Taxes

How do we pay for the goods and services that government provides?

MACROECONOMICS

What Are Taxes?

Taxes are **mandatory payments** individuals, households, and businesses make to **local, state, and national governments**.

Taxes and government expenditures are different at each level of government.

Property Taxes

Sales Taxes

Income Taxes

Corporate Taxes

Payroll Taxes

- Health Care
- Defense

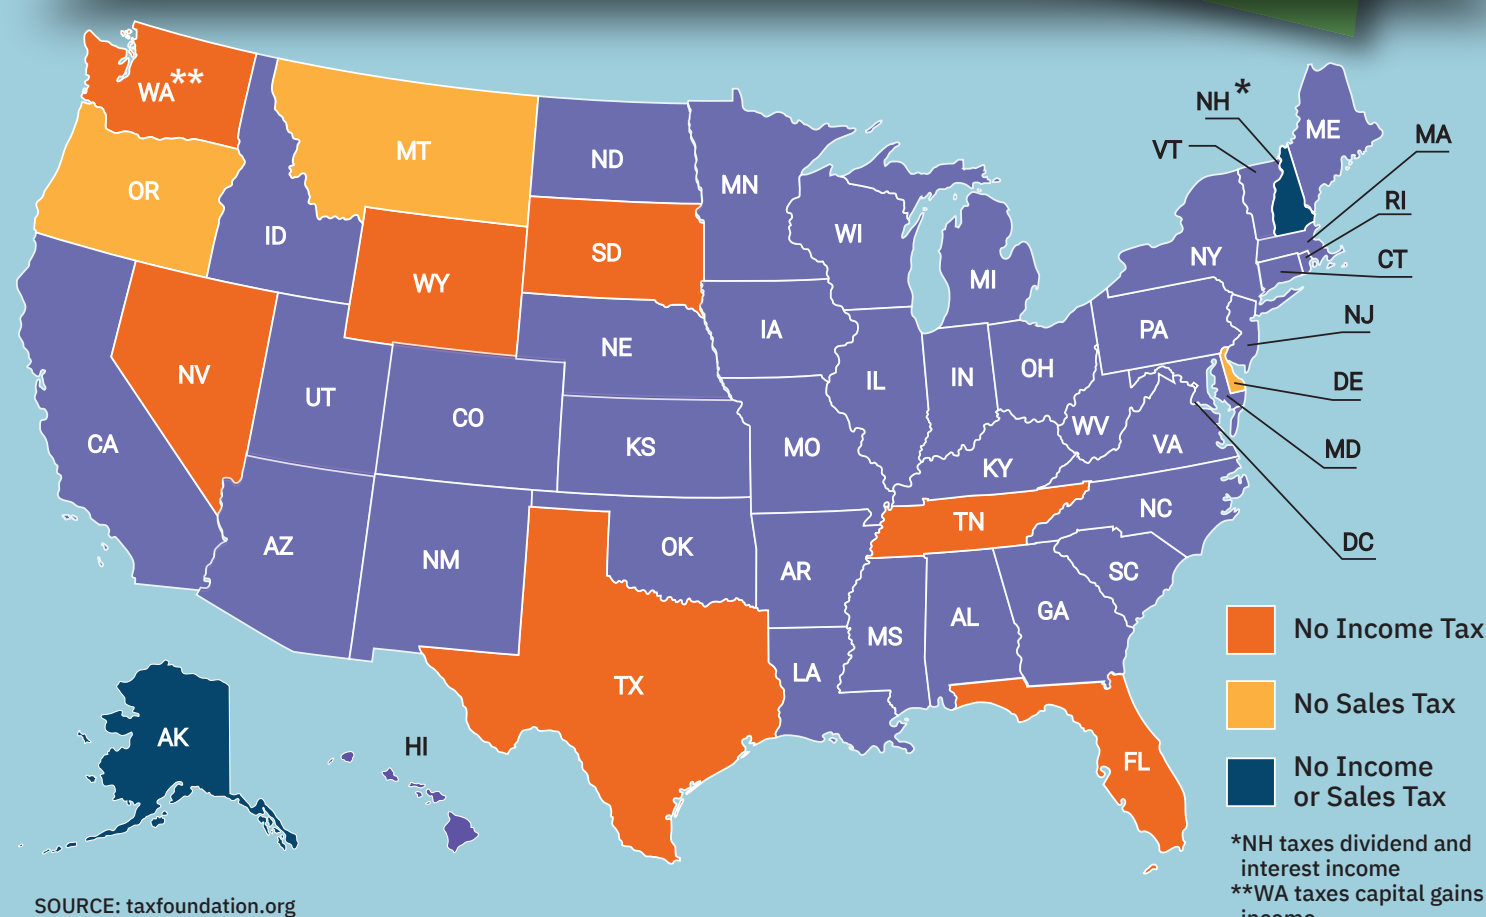

State

- Education
- Public Health
- Criminal Justice

Local

- Schools
- Roads
- Police

States Without Sales or State Income Taxes

When revenue \neq expenditures, the federal government runs a deficit or a surplus.

When the government spends more than it receives in revenue, it creates a **deficit**, and the **national debt** rises.

When the government receives more revenue than it spends, it creates a **surplus**, and the **national debt** goes down.

Types of Tax Systems

Progressive Tax

A system in which the tax rate increases as income increases

Regressive Tax

A system in which the tax rate decreases as income increases

Proportional (Flat) Tax

A system in which the tax rate is the same for all income
