Opportunity Occupations: Georgia
Exploring Economic Opportunity for Workers in the Southeast

What Are Opportunity Occupations?
Opportunity occupations are occupations that are generally accessible to workers without a bachelor’s degree and that pay more than the national median wage ($41,950 in 2020), adjusted for local cost-of-living differences. They offer economic opportunity for middle-skill workers—those who have finished a high school degree but have not completed college—and for workers in certain occupations who do not have a high school degree.

What Are the Jobs?
